(Reference)

Unrealized gains (losses) which constitute a part of adjusted net worth are expected to be realized as accounting profits in the future, therefore the sum of value of in-force business and unrealized gains (losses) may be considered to represent expected future profits from in-force business.

Breakdown of Group EEV based on this idea is as follows.

(billions of yen)

	March 31, 2017	March 31, 2018	Increase (Decrease)
Group EEV	5,495.4	6,094.1	598.7
Total net assets on the balance sheet + Retained earnings in liabilities ^{*1}	1,524.5	1,770.7	246.2
Value of in-force business + Unrealized gains (losses) of fixed income assets ^{*2}	2,400.8	2,416.2	15.3
Unrealized gains (losses) of assets other than fixed income assets ^{*3}	1,570.0	1,907.1	337.1

^{*1} This item is calculated by deducting the amount of unrealized gains (losses) from sum of the Group's adjusted net worth and adjustment related to non-covered business. It represents accumulated amount of realized profits.

^{*2} The sum of the Group's value of in-force business, unrealized gains (losses) of fixed income assets of Dai-ichi Life and unrealized gains (losses) of assets of DFL or NFL is reported. It is a component of unrealized profits which is mainly affected by interest rate; the change in the value of in-force business due to interest rate fluctuation is offset by the change in unrealized gains (losses) of fixed income assets.

^{*3} The amount of unrealized gains (losses) of assets other than fixed income assets of Dai-ichi Life, including equities, un-hedged foreign bonds and real estate, is reported.

For NFL, improvement of operating efficiency is expected in the future with the progress of business expansion because the new business has been operated for only a short period of time. Therefore, based on the projection of new business trend and of operating expenses in the mid-term business plan, unit-costs are assumed to decrease over 8 years; it is expected to reach an ultimate level within 10 years after new business expansion started.

Value of new business calculated based on the assumption that the ultimate unit-costs are realized at the time of sale is as follows:
