**Revision of Consolidated Earnings Forecast and Notice on Recognition of  
 Non-Consolidated Extraordinary Losses for the Fiscal Year Ended March 31, 2020**

---

Dai-ichi Life Holdings, Inc. (the “Company”; President: Seiji Inagaki) hereby announces a revision of its consolidated earnings forecast for the fiscal year ended March 31, 2020, which the Company announced on May 15, 2019 (February 14, 2020 for net income per share), and the recognition of non-consolidated extraordinary losses.

(1) Reasons for the revision

The Company projects that its consolidated ordinary profit and net income attributable to shareholders of parent company for the fiscal year ended March 31, 2020 will be below its previous forecast because it expects an increase of 160.5 billion yen in losses from accrual of policy reserves resulting from market value adjustments (MVA) at The Dai-ichi Frontier Life Insurance Co., Ltd. affected by lower overseas interest rates, and losses in other ordinary expenses of 48.5 billion yen affected by a decrease in amount of securities due to a decline in the share price of Janus Henderson Group plc, an equity-method applied affiliate of the Company.

The Company’s forecast for its group adjusted profit for the fiscal year ended March 31, 2020 (around 240.0 billion yen), which represents the source of shareholder returns, remains unchanged. The Company’s forecast for its consolidated ordinary revenues for the fiscal year ended March 31, 2020 also remains unchanged.

(2) Shareholder dividend forecast

The Company’s dividend forecast for the fiscal year ended March 31, 2020 (62 yen per share) remains unchanged.

(3) Recognition of non-consolidated extraordinary losses

The Company recognizes impairment losses of 60.2 billion yen in stocks of subsidiaries and affiliates in its non-consolidated financial statements for the fiscal year ended March 31, 2020 as extraordinary losses due to a fall in the share price of Janus Henderson Group plc as mentioned above. The extraordinary losses are eliminated in the consolidation process and losses in other ordinary expenses of 48.5 billion yen are recognized on a consolidated basis.

The figures in this release are calculated based on the information available as of the date of this release. Actual results disclosed in the future might be different from the forecasted figures above for various reasons.
