Selected as a “CDP A List Company” in the 2025 Climate Change Survey

Dai-ichi Life Holdings, Inc. (the “Company”; President and Representative Director, Group CEO: Tetsuya Kikuta) has been selected as one of “CDP A List companies” in the 2025 Climate Change Survey by CDP, a global non-profit in recognition of the Company’s activities to address climate change and its information disclosure.

1. CDP’s selection of “A List companies” in its survey on climate change

Every year, CDP assesses companies’ activities to address climate change and their information disclosure and announces its “A List companies” making particularly significant progress in the activities. In 2025, more than 22,100 companies around the world are reporting through CDP’s platform, and the Company has been selected as one of the “A List companies.”

2. Dai-ichi Life Group’ activities to address climate change

Dai-ichi Life Group is driven by the Purpose of “Partnering with you to build a brighter and more secure future.” Sustainability Statement for Dai-ichi Life Group established to realize the world aimed at by the Purpose states: “We, as a group, commit to enriching natural capital through reducing environmental impact, and contribute to the development of a sustainable society. To achieve this, we have established Group Environmental Action Policy. We are committed to evaluating steps to reduce our carbon footprint, enhancing energy efficiency, and supporting practices that promote environmental health.”

Our core subsidiary, Dai-ichi Life Insurance Company, Limited, has been certified as a RE100 achieving company. Moving forward, Dai-ichi Life Group is going to continue to engage in energy-saving activities and renewable energy use, promote the reduction of greenhouse gases associated with our business activities, and contribute to the realization of a decarbonized society through engagement with investee companies and investments that contribute to solving climate change issues.

*CDP is a global non-profit that runs the world's only independent environmental disclosure system.
